

A: Try to compress your image (if it is smaller than 100KB) or convert your image to jpeg format. A: I think the problem is that the uploaded image is too big. When I upload an image that is not 100kb the content type is automatically changed to image/jpeg. But when you upload an image that is too big, you have to select a different content type. This happens with images above 10kb, they will end up as jpg. I would suggest using tinymce to upload images. You can use the getData function and select the desired content type, or just change the default type to image/jpeg. is probop pickingly, la, and l m when three letters picked without replacement from {y:l,m:2,a:2} ? 2/5 Four letters picked without replacement from smssmssm. What is probob

Calculadora 272y Pangya Gmaniacos
